HEN you inspect the new Oldsmobile, you will be impressed by the fact that here, again, Fisher has wrought with all the freshness of conception and mastery of design for which Fisher is notable. It is the Fisher leadership in these attributes as much as in unrivaled resources and experience, which has made "Body-by-Fisher" practically a short-form expression for captivating charm, unusual comfort and utmost value in an automobile body.

Some, Helpful Hints For Busy Housewives

SLEEP YOUR WAY TO HEALTH

"The surest way to maintain' health is to get plenty of sound sleep," says Dr. Frank Mayo. "Sleep is the Great Revierrgreater than all the medicines and stimulants known to science."

Not until you have experi-enced the deep, profound slum-ber on a Marshall mattress can you know the wondrous differ-ence perfect sleep makes in the enjoyment of life, and the maintenance of good health.

Mantenance of good nearm. No price is too great to pay for such sleep. Yet the Marshall is only a few dollars more than hard, unyielding mattresses which make perfect slumber impossible. The soft, flexible centre spring of the Marshall affords perfect body support. Every curve of the body "fits into it" naturally and smoothly.

The Marshall Spring Mattress cannot sag, pack or lose its shape. It will be the same resilient, scientifically shaped mattress in five years as it was the day you bought it. Sold in five grades and guaranteed for five years.

More POWER

McLaughlin-Buick en-gine develops more power than other types because the valve-in-head construction con-centrates the full force of the explosion direct-ly on the piston and he-cause it necessitates a smaller cooling areasmaller cooling area. This latter feature also provides more efficient combustion and a valuable saving of fuel.

The G.V.A.C. Defend Proceed Place of the more deceases to buyers of Milosophin Smith core.

ESTS prove that the valve-inhead engine as used by McLaughlin-Buick develops more power than any other engine of its size.

Pounding of Heavy Trucks

Breaks up Highways

In early Spring when water lurks in road foundations.

During wet spring days when frost is coming out of the ground, even the best of highways are damaged by the pounding of heavy trucks. On paved roads, foundations "chum" and become fractured, while on macadam and gravel roads the surface is cut up as well.

The Ontario Highway Traffic Act has special clauses to protect roads, both paved and unpaved, from damage by heavy trucks at such periods. The Act declares that during March and April, on roads outside cities and towns:

Solid tired trucks and trailers shall not carry more than half a load:

Pneumatic tired trucks and trailers, with a carrying capacity exceeding three tons, shall be limited to half a load;

Horse drawn vehicles, with a carrying capacity exceeding one ton, shall be limited to half a load.

The speed limits for trucks at all seasons are: 15 miles an hour for solid tired vehicles, and 20 miles an hour for pneumatic tired vehicles of more than six tons gross.

The penalty for overloading at this season is a fine, imprison-ment, or both. Licenses may be suspended also. Highway traffic officers have been directed to be especially vigilant in apprehending all who disobey.

The Department of Highways desires to impress upon truck and team owners and drivers the provisions of the law and the penalties provided. It seeks their co-operations in a decemo-observation of provisions so greatly in the public interest. Ontario has an investment of over \$170,000,000 in roads and an annual maintenance bill of \$4,000,000. This investment must be protected.

Symbols of a New-High Quality in Motoring

Wherever you see the crests reproduced above, you will quickly identify them with a new luxury and a new value in six and eight-cylinder motoring. In creating an advanced mode and standard in body styles for the new Hupmobile Century models. Hupmobile has likewise expressed the spirit. and vigor of this new age of high-compression, high-powered motors. Q So admirably do the new Hupmobiles reflect in line and contour, advanced qualities of fleet, smooth performance that Hupmobile dealers everywhere report a record number of sales made without reference to a demonstration.

50 striking and colorful body styles—both standard and custom-equipped—now offered in three different wheelbases—the Six of the Century, the Century Eight and the Century 125 Eight.

Countless years ago, when the world was in the making, Peruvian Crude Petroleum acquired its peculiarly rich lubricating qualities. Stored for ages in the rich oil bearing sands of Peru, it came into use as a base for lubricating oil when the resources and equipment of IMPERIAL OIL LIMITED made Marvelube possible.

IMPERIAL OIL alone controls Peruvian Crude production, and Peruvian Crude alone is used in making Marvelube. The result is an inherently better oil of exclusive properties, an oil that fully meets all requirements of motor lubrication under all conditions of operation.

Back of Marvelube are the experience, resources and integrity of IMPERIAL OIL LIMITED, for forty-seven years Canada's largest refiners of petroleum products.

LET THIS CHART BE YOUR GUIDE There is a grade of Marvelube exactly suited to your motor's requirements. If your car is not listed on this abbreviated Chart, see the complete Marvelube Chart at any Marvelube dealer's

INFLUENCE ON ROOKIE PLAYERS

Young players going to to the big keapuse this year get a great kick out of meeting their diamond heroes. All admit they have a player idol, general y Ruth, Ty Cobb or Grover Alexander. Cobbs influence on the younceters have been noted in players who have, they created stardom motably slow.

Nash is one of the great leaders in the business of building the World's motor-cars, because Nash delivers finer motor-ing at lower cost.

This is the plain truth. It is even more apparent today than ever before, due to the recently announced Nash price

reduction.

See these cars and realize what amazing values they are at their newly reduced prices. True fine-car atmosphere and re-

World's greatest Value and Outselling all sixes

THE world's largest sale of 6-cylinder cars became an Essex achievement solely because of merit. All 6-cylinder sales records are swept aside in the enthu-

sisatic reception everywhere accorded the New Essex Super-Six. Many communities report 100%, 200%, even 300% greater sales than for the corresponding period of last year, which was the former all-time Essex record.

Greater in power, more versatile in all performance, large, roomier and more beautifully appointed, the New Essex Super-Six gloriously earns its richer reward in even greater popularity than its predecessor. The exclusive, high-compression Super-Six motor that turns waste heat to power, develops the greatest power per cubic inch of piston displacement of any stock motor we know in the world.

In all ways the New Essex Super-Six is engineered to the lowest operation and maintenance costs. And increasing thousands of owners rolling up thousands of miles of service prove that these qualities which delight you on your first ride are just at lasting as they are brilliant.

The VOICE

The Telephone is the Voice of the Nation

If one could but listen in he would hear the speech of the market-place, the language of the law-makers, the talk of the home.

If nature's great boon to man is the gift of speech which embodies in it so much of the personality behind it, certainly that of science is the ability to transmit that voice and the accompanying person-ality over thousands of miles of space.

The four corners of the earth are searched for the materials which contribute to the making of the tele-phone on one's desk in the office and on one's table at home. Cotton, copper, gold, silk, antimony, lead, rubber and other fibres and minerals are hidden within the modest dress of this indispensable little instrument upon which so many of our skilled workmen are continually employed.

One of the best uses to which electric power in Canada is put if fu, the daily operation of the more than a million telephone sets, with their accompanying wires and cables, switchboards, and all the rest of the paraphernalis which go to make up Canada's great telephone systems.

VISITING KINGSTON
A party of lady bowlers representing
Domento's alleys motored to Kingston
this afternoon where they will play
se'eval games with the Kingston turne

retirm the inter-city visit at a later
date. Some of the best lady bowlers
in the city were included in the party.

There will be a meeting tonight let the Y.M.C.A. to discuss the organ-ization of a Track and Field Club is the city. It is felt by many that there is a great need for an erganization of this kind in Beljeville and it is to be hoped the idea it carried through.

One of the most striking feats which the ratio of posses to toe premiums paid has increased in the past three years. In 1825, the losses amounted to 33,456,271, or 49,72 per cent, of the premiums. In 1826, the total losses jumped to 84,372,783, with a loss ratio of \$4.23 per cent. Last year, the figure given above are reported—losses of \$6, 220.185, almost double those of 1225, and a ratio of 63.77 per cent., or an in crease in two years of 14.05 per cent. This is proof of the increase in autonobile accidents for the growth of the premiuma fial by no mean kept por with the growth in accident losse. 5 hours-OR 3 minutes?

PLOYD W. PARSONS, the well-known publicity expert said that on his last trip to France the telephone authorities told him it would take five hours to give him telephone connection between Paris and Havre. It only takes a railway train five hours.

Here, he could have been talking as great a distance in three or four minutes—if he gave the operator the distant number.

If you don't know the distant number, Long Distance will look it up for you, and tell you what it is, so you can make a memo, of it for future use.

A wise move is to give us a list of the firms you talk with by Long Distance, and ms you talk with by Long Distance, and us supply the numbers. We will, gladly.

Kotex at all Stores

Doctors advise women always to use it, for these 4 reasons:

I INNECESSARY risk of health is folly, and women who formerly employed home-made sanitary pads have been quick to see the safety and comfort of Kotex, the new scientific sanitary napkin.

Today at all stores you will find it. Ask any doctor or nurse and they will advise it, Ask your friends who employ Kotex. They will tell you.

1 Kotex fits the figure; is made of softest ma-terials. Is scientifically shaped to give the greatest comfort. It is non-detectable when

2 It is 5 times as absorbent as cotton. Absolute protection.

3 You dispose of it without embarrassment. A very simple way to dispose of Kotex is given in the directions in each box.

4. It deodorizes, hence ending all fear of offense

we are pleased to advise that we have purch cargo of the BEST SCOTCH ANTHRACITE COAL, and have chartered the S. S. "REIN" which will land at our Coal Dock DIRECT FROM GRANGEMOUTH, SCOTLAND, in about three weeks.

This completes arrangements which we have been working on for years, trying to get direct shipments of this high grade fuel for the Belleville people, to sell at a reasonable price, viz; \$16.00 PER TON. Very appropriately clur efforts have met with success during British Empire Shopping Week-

This is the coal that has largely supplanted other fuels in Montreal, Quebec and Ottawa, where it has been selling free ly at \$18.00 per ton and higher.

IMPERIAL tank ships go all the way to South America for the crude petroleum from which Marvelube is made. Many crude oils are available right at Canada's front door, but none of these possesses the lubricating properties of Peruvian crude. Peruvian crude is so distinetly superior a base for lubricating oil that its exclusive qualities warrant the 12,000 mile trips of IMPER-IAL'S huge tank ships.

The resources of Canada's largest refiners of petroleum products make Marvelube possible. In addition to using a better crude for the manufacture of Marvelube, IMPERIAL OIL LIMITED employs improved and exclusive methods of refining. From oil well to crankease IMPERIAL resources and IMPERIAL equipment combine to produce in Marvelabe a distinctly better oil.

The Department of National Revenue urgs all Dominion Income TaxTheory of the Committee of

Three Kinds of Forms There are three kinds of Dominion Income? Reams, one of which will apply to any tax pay The different forms are:

he different forms are:

Form T 1 —For all individuals, other than
farmers or ranchers.

Form T 1A—For farmers and ranchers.

Form T 2 —For corporations and joint stock

If you to desire, the Inspector of Income Tax for your district will zend you upon written request a revised copy of The Income War Tax Act, Consolidated, Chapter 97 (R.S.C. 1927).

Income from All Sources Must be Declared

The public is especially reminded to report all come from bearer bonds—whether Dominion, rovincial, Municipal or Industrial. The 1928 glation enlarges the powers of the departent which is now enabled to trace the owner-iny of all bearer bonds.

Personal Exemptions

Personal exemptions should be noted carefully. They may be summarized as follows:

(a) \$3,000 in the case of a married person or householder, or any other person who has

dependent upon him any of the following

1. A parent or grand-parent.
2. A daughter or sister.

3. A son or brother under 21 years of age; or incapable of self-support on account of mental or physical infimity—except where the husband and wife each have a separate income in excess of \$3,500, then the self-self or \$1,500 exemption, \$1,500 exemption, \$1,500 exemption.

(b) \$1,500 in the case of unmarried pe (c) \$500 for each child under 21 years of age who is dependent upon the tax payer for support, or if 21 years of age or over is incapable of self-support on account of mental or physical infirmity.

Send Cheque with the Return Income tax may be paid either in a lump sum or in four installments, plus interest. An accepted cheque or express or money order for either the full amount or the amount of the first installment must accompany the official forms. Do not send cash. April 30 is the last

Cheques are to be made payable to "The Receiver General of Canada."

Cheques must be marked "accepted" by the bank on which drawn. FILE YOUR RETURN ON OR BEFORE APRIL 30.

Performance Comfort & Safety Equal to Every Demand

THERE is a satisfaction in driving the New Ford Car. You are impressed with the remarkable ease with which gears are shifted; the smoothness of starting as the clutch is engaged; the vigorous acceleration.

You ride in deep upholstery. Wide seats and ample leg-room ensure comfort even on a long drive. Flexible springs and four hydraulic shock absorbers protect you from the shocks of

Your hand on the steering wheel finds an instant response to the slightest turn. Your foot on the brake pedal brings the car to a quick, safe stop. Steel bodies with narrow pillar posts and a shatterless glass windshield add to your safety.

And when your drive is over and your car stands in front of your home, you feel the same pride in its handsome appearance that you derive from its mechanical excellence.

A FOOLISH GESTURE

The demand made by W. N. Sin-clair, the Liberal leader in the Ontario the part of election officials, can be taken as Jittle more than a meaning-

ain stray ballot mapers in the Sout Ottawa election, in which it was found Ottams election and massing of an illegal or criminal nature, but a good deal of careless handling of ballots.

Surely Mr. Sinclair cannot be serious

in his request that the province used in to the expense of a special session of the legislature to have the election have amended to provide against the results of possible carelessoes. Why the necessity for such haste? It is true that there may be one or two byelections before the next session, by that is no reas in amending the laws. The lessons of South Ottawa will not quickly be for gotten, and will have, a healthy in-fluence on the actions of returning of-ficers and other election officials untisuch time as definite changes can I

have thought that he was stand forth as a bold champion of the el countries are united in regret at one when he made his demand. It is much of Floyd Bennett, of whom more than likely, however, that the he truly said that he sacrificed attitude as both absurd and unreasonelf for service. World's greatest Value and Outselling all sixes

THE world's largest sale of 6-cylinder cars became an Essex achievement solely because of merit.

Pasex aemericanisms using occasion of invita.
All 6-cylinder sales records are swept solde in the enthusiastic reception everywhere accorded the New Essex Super-Six. Many communities report 100%, 200%, even 300% greater sales than for the corresponding period of last year, which was the former all-time Essex record.

Greater in power, more versatile in all performance, large, roomier and more beautifully appointed, the New Essex Super-Six gloriously, earns its richer reward in even greater popularity than its predecessor.

even greater popularly than as predecessor.

The exclusive, high-compression Super-Six motor that turns waste heat to power, develops the greatest power per cubic inch of piston displacement of any stock motor we know in the world.

In all ways the New Essex Super-Six is engineered to the

Y. M. C. A. BOWLING

Dratts,

My interest in the organization has extended over many years, and first came when I was in Australia. Since then I have seen Salvationists in my own country, and even more in India, where they get hold of people no other organization reaches. The Criminal classes are made to feel more like human beings through The Army.

VISCOUNT WILLINGDON, GOVERNOR-GENERAL

"Self-Denial Week"

When outstanding men, men whose integrity is unquestionable, men whose vision is farseeing, and international in its scope, express such opinions as the above "There must be good in the Army". If you could only grasp the superiflying such of this great world-wide organization you would be astoughed + all Day - every day this Army of Salvation is giving and doing something for some unfortunate. At this period The Army is entering on its camping of "Salf-Penial." Will you deep yourself, tox, and help the cause?

Donations may be sent to Lieut.-Commissioner Maxwell, 20 Albert Street, Toronto, or to the Local Corps Commander of your own town.

Floating in space—with not the slightest sense of mechanical forto—is the effect to tors contribute. Gone are all the send shocks and read sounds. Gone are all the squeaks and read spart of chassis lubrication.

This is but one of more than 40 returned of the three Chrysler models which give leadership in the Co Chrysler—junder engineer. HRYSLER now adds rubber shock insulators to the Great New Chrysler "62." And at no increase in price! For the first time this great engineering feature is included in a car selling at \$1350. Thus Chrysler becomes the one manufacturer to offer a complete line of six-cylinder models—"62," "72" and 112 h. p. Imperial "80" —priced from \$1350 to \$4685,

By making possible this greatest riding luxury at its new low prices in the Great New "62," Chrysler again shows conclusively how its Standardized Quality of engineer-ing and manufacturing gives ex-tra value to Chrysler buyers.
